Screening Analysis

QUESTION	ANALYSIS
Walk us through a system or project you built — what was your architecture and key design decisions?	[Strong] Candidate demonstrated solid understanding by referencing: design, git, database, api. Response showed depth, structured thinking, and real-world applicability.
How do you approach debugging a complex production issue?	[Moderate] Candidate covered key areas including: test, profil, log. However, some aspects lacked elaboration or depth. A follow-up is recommended.

Detailed Feedback

STRENGTHS

- Strong in Programming (8.5/10 — Very Good).
- Proficient in optional skill: SQL (8.5/10).

AREAS FOR IMPROVEMENT

- Weak in Data Structures (2.0/10 — Poor).
- Weak in Algorithms (2.0/10 — Poor).
- Predominantly negative/defensive tone detected.
- Below-average coding assessment score (0.0/100).

CONCLUSION

Shubham Gupta shows borderline competency. Requires follow-up.
