Profile Summary

MCA student with strong foundations in Python, SQL, and database systems, along with knowledge of data analytics and software testing concepts. Skilled in data analysis and visualization using Pandas, NumPy, Matplotlib, Seaborn, and Power BI, and familiar with SDLC, STLC, test case design, and bug life cycle. Interested in applying data-driven insights and testing practices to improve software quality and decision-making.

Education

Mohanlal Sukhadia University, Udaipur

Master of Computer Applications

- (1st Sem) SGPA: 8.38/10
- (2nd Sem) SGPA: 7.88/10
- Relevant Coursework: Database Management Systems, Software Engineering, Web Technologies

Mewar Girls College, Chittorgarh

Bachelor of Computer Applications

- Percentage: 82.63%

Technical Skills

- **Programming:** Python, Java
- **Software Testing:** Manual Testing, SDLC, STLC, Test Case Design, Bug Life Cycle, Regression Testing
- **Database:** SQL
- **Tools:** Git, GitHub, VS Code
- **Concepts:** Object Oriented Programming (OOPs), DBMS, Data Modeling, Problem Solving

Soft Skills

- | | |
|-----------------------|------------------------------------|
| • Team Collaboration | • Interpersonal Communication |
| • Analytical Thinking | • Adaptability to New Technologies |

Projects

Campus Service Request System | Java, Database

- Developed a complaint management system for students to report campus-related issues.
- Implemented user authentication and complaint tracking features.
- Tested application functionality and validated database operations for accurate data storage.

Handwritten Digit Recognition using CNN (Python, TensorFlow/Keras)

- Built a Convolutional Neural Network (CNN) in Python using TensorFlow/Keras to classify handwritten digits from the MNIST dataset.
- Implemented image preprocessing, model training, and performance evaluation, improving classification accuracy through dropout and pooling layers.

Certifications

- Fundamentals of Deep Learning – NVIDIA
- Python Programming – GUVI (HCL)
