

ROHIT SINGH CHOUHAN

Agentic AI Engineer | Full Stack Developer

+91-8114408267 • 2506rohitsingh@gmail.com • Udaipur, Rajasthan
LinkedIn: rohit-singh • GitHub: RohitBit-25

PROFESSIONAL SUMMARY

AI/ML Engineer specializing in Agentic AI systems and production-grade pipelines. Expert in designing autonomous agents using LangChain, LangGraph, and Model Context Protocol (MCP), backed by full-stack expertise in Next.js and React. Dedicated to building scalable, end-to-end solutions that bridge complex AI logic with user-centric interfaces.

TECHNICAL SKILLS

- **Languages:** Python, Java, JavaScript, TypeScript.
- **AI/ML:** LangChain, LangGraph, CrewAI, RAG, MCP, A2A, TensorFlow, Keras, Scikit-learn.
- **Web & Cloud:** React.js, Next.js, React Native, Node.js, FastAPI, MongoDB, PostgreSQL, Git, Vercel.
- **Core Concepts:** Agentic System Design, REST API Design, End-to-End ML Pipelines, Data Structures.

PROFESSIONAL EXPERIENCE

QualCentric Group

Noida, Uttar Pradesh

MERN Stack Developer Intern

May 2023 – Oct 2023

- Architected a full-stack Blog Application using the MERN stack; developed robust RESTful APIs for secure authentication and data retrieval.
- Optimized MongoDB schemas for high-performance storage and designed a responsive React UI, significantly enhancing user engagement.
- Collaborated in an agile environment to deliver client-focused solutions, mastering professional software development workflows.

KEY PROJECTS

KrishiDEV – AI for Agriculture (SIH 2025)

Python, FastAPI, LangGraph, MCP

- Architected an AI assistant using LLMs and LangGraph to deliver context-aware farming insights, implementing Model Context Protocol (MCP) for standardized agent interoperability.
- Deployed real-time data pipelines to process agricultural metrics, enabling dynamic decision support.

Lumina – The Personal OS

React Native, Expo, Gemini 1.5 Pro

- Engineered an immersive "Personal OS" mobile platform using React Native and Reanimated (60fps), featuring glassmorphism UI and hardware sensor integration.
- Integrated Google Gemini 1.5 Pro to power generative modules, dynamically creating personalized content (letters, trivia) based on user "Vibe" parameters.
- Built an in-app "Creator Studio" (CMS) enabling real-time app customization without code changes.

DigiSafety

React Native CLI, Machine Learning, REST APIs

- Built a digital safety platform to detect online risks via content analysis, orchestrating a robust Node.js backend for real-time threat detection.
- Designed an intuitive React frontend to visualize safety metrics and provide actionable security alerts.

EDUCATION

Master of Computer Applications (MCA)

MLSU, Udaipur

2024 – Present (Expected 2026)

Bachelor of Computer Applications (BCA)

MLSU, Udaipur

2020 – 2023 | GPA: 8.3/10

CERTIFICATIONS & ACHIEVEMENTS

- **AI Engineer:** Agentic Track (The Complete Agent & MCP Course).
- **Deep Learning:** NVIDIA DLI Fundamentals & Data Parallelism (Multi-GPU Training).
- **Development:** FreeCodeCamp Python Certificate.
